TWO MOUNT VERNON OFFICE HOLDERS ACCUSED BY TAXPAYERS

COLLUSION WITH A TAMMANY CONTRACTOR ALLEGED-MANY SUITS BROUGHT AGAINST THE CITY

Another serious outcome of the mismanagement of public affairs in Mount Vernon under the Democratic machine which, led by Mayor Edwin W. Fiske, has had control of the city. came to light yesterday, when papers were served on the City Clerk and Common Council by ex-Judge George C Appell, representing twenty or more persons who are bringing suits in the Supreme Court to set aside the assessnents for improvements which were made in front of their property in Bedford-ave., a residence street in Vernon Park, which they claim were fliegal and wholly extravagant. The taxpayers, through their attorney, practically charge collusion and fraud between "Bart" Dunn, a Tammany contractor and brother of ex-Sheriff Dunn, of New-York City, and two Mount Vernon city officials-John O'Toole, Commissioner of Public Works, and George W. Drumbeller, City Engineer. They ask to have the entire cost of the work, amounting to \$14. 477 40, set aside on the grounds that the city illegally changed the grade, without complying with the city charter, and that the contractor received false certificates from the city officers certifying that he did certain work, when in fact he did not do it. Judge Appell and his clients stimate that the contractor was paid about \$10,000 more than he was entitled to had the done in a reasonably economical the actions follow: Benjamin Westervelt, J. F. George, Roscher Brothers, Ida Holm, Julia Bennett, Clarence S. McClellan, H. G. Wheeler, Wallace Van Dorn, W. J. Fee, George Anna Johnson, Martin Ackerman, Frances M. Wilson, W. H. Martens, D. W. Whitmers and Anna L. Johns. Here is one of the specifications in their complaint:

That prior to the 10th day of June, 1901, the aforesaid contractor, "Bart" Dunn, and the Comnissioner of Public Works of the defendant or his chief engineer, or both, conspired and confederated together for the purpose of frauduuntly procuring from the defendant payment to the said Dunn at the contract rate, for more excavation than he, the said contractor, would or could do under the aforesald contract or upon the aforesaid work of regulating, grading and therwise improving Bedford-ave, from East Third to East Sixth-st., and having the cost thereof, including such fraudulent increase, assessed upon the property within the district of issessment hereinafter described, including the property of this plaintiff.

MANY MORE SUITS COMING.

City Clerk Hoyt, upon receiving the papers in he suits, turned them over to Corporation Counsel Marshall. It is said that the suits are only a few of a large number that the residents Vernon Park and the eastern section of Mount Vernon will bring to vacate the assessments on the almost ruinous improvements that have been carried on in the neighborhood by "Bart" Dunn, who seems to have had a monnon. Charles H. Lovett, the newly elected president of the Common Council, when he learned of the action of the taxpayers of Bedford-ave., said

quarter of a million of dollars has been sunk in costly improvements in this neighborhood, and the assessments in many cases are greater than the value of abutting property. I understand that Mr. Dunn had three very fine contracts at Vernon Park. One was a sewer which cost \$150,000; then there was the Sixth-st. extension at \$97,000, and the other the Bedford-ave, grading at \$14.000. The sewer, the Sixth-st, extension and the Redford-ave, improvement were so near each other that they intersected. I understand that the contractor took the stone from Sixth-st, and was paid for removing it, and that he used it in building the sewer and received pay for it again. Then, I understand, he renoved the dirt from Bedford-ave, at so much a cubic yard and used it to fill in the Sixth-st. extension, where he also received pay for it. So that he practically was paid twice for moving the dirt and rock on each of the contracts. this is true, there is nothing criminal in it so far as the contractor is concerned. He was merely fortunate. But what of our officials who allowed such a loss to the city to go on? You can form your own opinion on that. These are Mount Vernon people are now called upon to

The Tribune reporter learned that probably many taxpayers along the Sixth-st. extension vacated and the work be made a public charge Joseph S. Wood, president of the Board of Education and a prominent Mount Vernon lawyer has a number of cases. It is said that there is ments, which were made at a cost of \$97,000. This house was left so low that it was abandoned and is now tumbling down. The papers in the suits of the Bedford-ave.

tion Counsel Marshall. Mr. Marshall said today that it was probable that the city would fight them to the Court of Appeals.

ration Counsel Marshall, "but the papers con tain some very serious accusations against Commissioner O'Toole and City Engineer Drumbeller, They are accused practically of collusion with the contractor. If these charges are proven at the trial, it is up to them. If they are not proven, it seems to me that they should have me very good actions for libel against Mr. Appell and his clients."

## WHAT THE ACCUSED SAY.

Engineer Drumbeller, who is accused in the complaints, declared that the charges are untrue, and said: "We are not saying much, but we will make some one feel sick before this thing is over. We will make them prove these charges, and if they don't-well. I'll not say any It's time to talk when the case comes

"How about these statements that 'Bart' Dunn received pay for removing earth and stone from one street and was again paid for depositing

"That was all right," said Mr. Drumbeller. 'Mr. Dunn was simply fortunate in getting three contracts close together. It was a piece of luck with him. He is a shrewd man, and knows how to bid on work. He is not like some of our local coontractors, who bid on a piece of work and then go broke."

Ex-Judge Appell, in speaking of the proceedings brought by his clients, said: "The charges made in our affidavits of collusion and conepiracy are very serious matters. You may, be sure that they were not made until I made careful investigation. I have looked into the Bedford-ave. improvement carefully, and I can not see how our public officials could have made

OFFICIAL FRAUD CHARGED brought by J. Henry Hentz, of Philadelphia, a whiskey distiller, who owns two hundred town lots in the Borough of The Bronx. The lots border on Mount Vernon, and Mr. Hentz's suit was for damages, on the ground that the city of Mount Vernon several years ago, under the administration of Mayor Lewis so constructed a drain that it flooded them. The case was tried before a referee, David A. Verplanck, of White Plains. The judgment is said to be one of the largest ever secured in Mount Vernon. The city will probably appeal it. In addition to Mount Vernon's other compil-

In addition to Mount Vernon's other compil-cations arising from bad management, it was learned to-day that W. J. Hayes & Co., the firm of bankers who bid in an issue of \$130,000 de-ficiency bonds issued to pay off a part of the \$200,000 floating indebtedness accumulated under the Fiske administration, had objected to accepting the securities on the ground that they were not properly advertised. It may be that the bonds will have to be readvertised and resold, which would make two weeks longer that; the city's creditors will have to wait before re-ceiving their money.

stant communication with the firm for the last few days trying to straighten the matter out, but so far he has not succeeded. Among the creditors who will be inconvenienced if the bonds are rejected are the police, who have not received their salaries for several months, and the city officers, who are also waiting for their pay. A large force of special officers who were sworn in last summer on the occasion of the big Westchester County fire parade in Mount Vernon are also on the list.

#### CITY CLERK'S QUEER SUIT.

City Clerk Hoyt, who is a member of the emocratic administration, has caused suprise bringing an action against the Wrought Iron Bridge Company to recover the sum of \$800, alleged to be due him for bringing about the awarding to the company of the contract for the building of four so-called Hutchinson River bridges. In a resolution offered last night President Lovette of the Common Council asked the City Clerk to advise the Council whether the not he has demanded such commissions. His reply will probably be the basis of an investigation into the manner of awarding contracts epiy this weak. He said that he had acced the is personal capacity in heiping to secure the work for the concern, and that he considered he transaction a purely legitimate one, as he was not an alderman or a member of any body aving a vote on the contract. When asked as o whether any one else received a commission of the risk of bis case.

the trial of his case.

In the face of all these things the Democratical dermen tried last night to award the contract for a \$175,000 sewerage disposal plant to Holbrook. Cabot & Dally. The action was unexpected, as the Council in its committee meeting on Monday evening had agreed to postpone action until next week. The motion was defeated by a vote of seven to four, the Republican members voting against the proposition.

Mayor Fiske's administration a year or so ago was regarded as the "golden era," in Mount Vernon, but, like all golden eras, it has had its ending, and the taxpayers are now being called

vernon, but, like all golden eras, it has not like ending, and the taxpayers are now being called on to face the music, as they are also doing in New-Rochelle, which has just completed two years of Tammany administration under Mayor Dillon and a Democratic Board of Aldermen. Mayor Dillon and his board have been indicted Mayor Dillen and his board have been indicted by the Westchester County Grand Jury for reck-less extravagance. There is a loud demand in Mount Vernon for an investigation similar to the one made in New-Rochelle. This investiga-tion will probably take place after June 15, when the new Republican Board of Aldermen go in. The Receiver of Taxes and Controller, it is said, will be the first to come under scrutiny. The accounts of the former official have not been examined since the office was examined, more examined since the office was established, more than ten years ago.

#### ARGUMENT ON A RECOUNT.

There was a brief argument before Justice Jenks, of the Appellate Division of the Supreme Court, in Brooklyn yesterday, when Roger asked for an interpretation of the decision handed down Friday in the application for a recount of votes cast in the First Election District
of the Second Ward of Mount Vernon at the
election last fall. Counsel for Mayor Fiske
fought against an interpretation of the decision
that would permit of an examination of the
ballots found in the box. Mr. Sherman was persistent in his argument that a recount would
not be satisfactory unless the ballots were examined, since the ballot box had been in the
custody of an officer appointed by Mayor Fiske.

Justice Jenks brushed aside an implied threat
of Mayor Fiske's attorneys to appeal from the
decision, and gave to the lawyers an opportunity to file another request for an interpretation to-day. He intimated that the Appellate
Division desired to have a satisfactory examination of the ballots to determine if there had
been a correct canvass of the votes in the election. handed down Friday in the application for a re-

HARMONY POWWOW OFF AGAIN. BUT EX-SENATOR HILL WILL BE HERE

LATER IN THE WEEK Ex-Senator David B. Hill falled to appear in the ity yesterday, and as a result the projected harconference which was to be held by Mr. Hill Lewis Nixon, representing Tammany; James Shev ounty organization, and representatives of the up-State Democracy, did not take place. Mr. Hill seat word that he was detained in Albany by business out would probably be in the city Thursday or Friday, when he would be glad to see the local Demo-

and others who might be on hand That harmony is to be had even if some one gets hurt is indicated by the talk of every Democratione meets now. Ex-Senator Hill is talking harmony and Lewis Nixon is setting up a vociferous echo. Mr. Nixon was disappointed yesterday that he was unable to cuadle up to Mr. Hill and coo promises for the future and strenuously disavow any responsibility for past warfare. Mr. Nixon said

Waldorf-Astoria last night: Mr. Hill and myself are on the best of terms. Mr. Hill, myself and other Democrats will seen get together, and harmoniously formulate a plan of some time ago from Mr. Hill to visit him at Alount of previous engagements. I shall be glad to

Elliot F. Danforth said: "I have read a great deal about this harmony movement, and, while I know nothing of a definite arrangement for a has between Mr. Nixon and up-State Demo-peaders, I am sure that there is a disposition ound among the Democrats to get together, e State campaign anyhow. The prospect of a cratic victory in the State next fall is very and no real Democrat would stand in the of a union which would take the State out of ands of the Republicans. It is not the time bettomal quarrels. This is normally a Demo-State, and whenever the Democrats stand-ier to shoulder they win. The people are get-tred of Republican rule. The Democrats have

ominously, "we will be recognized as the cognization of New-York County, and will be wiped out."
